Legal Disclaimer: I am not SEBI-registered. These studies are taught as per the author's understanding and experience of the subject. This can be used as an edge to your existing system. The time cycle is dynamic. Futures or options trading is considered a high-level risk and one can lose much more than the capital invested. There is no guarantee as to future accuracy or profitability. Each trader and reader trades at his or her own risk, and neither the author nor publisher assumes any responsibility whatsoever for anyone's financial or commodity market decisions. Support may represent favourable risk/reward places to buy if the trend is up. Resistance may represent favourable risk/reward places to go short if the trend is down. The comments and trade recommendations are primarily for the traders/investors/speculators of futures contracts of stocks, indices, commodities, etc. These comments can be of value to traders/investors/speculators. These trade ideas recommendations are based on the studies done by the author and there is no guarantee of accuracy in the forecast. Those who take these trades need to manage their risk by adjusting stop-losses, based on their risk appetite.
